Alcohol Impaired Driving  
a Module for  
Driver Education

# Alcohol Impaired Driving a Module for Driver Education

© 2001 Minnesota Highway Safety Center

Project Development Team: Cheri Sundin, Brad Isberner, Joe Christensen and John Palmer

Special thanks for the assistance of our colleagues at the Minnesota Highway Safety Center and the members of the Minnesota Driver and Traffic Safety Association who helped with the production of this module. Funding for this project came from the Alcohol Impaired Driver Education Project.

Driver education is designed to help new drivers learn more than just the information included in the permit and road tests. Much of that knowledge is presented in the textbook. This module is not designed to be a stand-alone set of materials.

The Alcohol Impaired Driving module has been cross referenced with other materials and proof-read. There may be facts of importance missing. Please send any suggestions for changes to:
